

DEPARTMENT OF DRAVYAGUN VIGYAN

DEPARTMENT PROFILE-

Dravyagun vigyan is an important branch of Ayurveda which deals with Pharmacognocny, Pharmacology, Therapeutic of herbal medicine .Ayurvedic drugs, especially herbs are prescribed in different pharmaceutical forms, to get maximum therapeutic effect. Dravyagun vigyan provides special focus on identification of Controvercial drugs, Adulterants and Substituents as described in samhitas and as used in Ayurvedic practice. In Ayurveda many of medicinal plants are included as drugs and they are used either alone (EKAL DRAVYA) or in combination with each other to alleviate the disorders. The main objectives of this department are to provide a scientific foundation for therapeutics to increase the resources of the art of healing.

DRAVYAGUNA VIGYAN is a basic thing which comes in all Samhitas and in Nighantus.
