

# DEPARTMENT OF KAYACHIKITSA

Kaychikitsa is the first branch of ashtanga ayurveda that deals with diagnosis and treatment of a variety of disorder like geriatric medicine(Rasayana), aphrodisiac medicine (Vajikaran), skin disorders, Diabeties, arthritis joint disorders.Kaychikitsa is the subject taught in final year B.A.M.S professional degree courses, it is important basic clinical subject of ayurveda. In Ayurvedic treatment we always concerns about mind and thaught process of patients,so for that we also focus on manasrog which is also part of Kayachikitsa.

Kayachikitsa department is highly concerns with thoroughly education regarding all Ashtang yoaga, research on various aspects of Bruhat trayi and gives best and necessary treatment to each patients. In Kayachikitsa department we also provide departmental library and various charts.
